INSECT CALCULATOR.

He is Found in New Caledonia and
Can Count Correctly Up to
the Number Six.

There is a little insect found in New Caledonia called the "insect which counts," and which seems capable of counting to at least six. It is found on the leaves of the banana tree, and when the moment is favorable it may be seen to turn around, with its head as a center, in describing rapid circles. At first it executes six of them, nor one more nor one less, then it reverses the movement and makes the same number in an opposite direction. It stops a moment and begins again, but only makes five this time, always alternately in opposite directions. Another stop, then double rotation in alternative ways, the turns this time only being four, and so on, diminishing constantly in such a way as successively three, then two and at last one single turn.

After these gymnastic exercises, which are at the same time mathematical, the insect remains absolutely motionless until its agitation again takes possession of it and it gives itself up to its complicated calculations with an exactitude which many people might envy.

STRANGE FRIENDSHIP.

A Cat and a Pigeon That Live Together in Amity and Eat from the Same Plate.

Cats and pigeons as a rule do not associate with anything like friendliness. An exception to this fact is found at Wheeling, W. Va., where a white cat and a pigeon live in perfect amity, much to the pleasure of their

TWO QUEER CHUMS.

feminine owner. They eat from the same plate, and one will not touch his food in the absence of the other. Frequently the cat takes a walk with the pigeon perched comfortably in his white fur.

On the Back of a Shark.

Capt. Vane, of Long Island, declares that the following story is strictly true. He was out after mackerel one night, when his dory began to move uneasily, and then slowly but steadily it rose in the air, and, turning over, threw Vane a couple of somersaults and landed him on the back of a big dog shark. He clutched the dorsal fin and held on. The shark was probably the more frightened of the two and started off at a racing clip. The man held on for a full mile and only let go when the shark died. Then he was within a quarter-mile of the Half-Way Rock lighthouse, which he easily reached by swimming.

He Answered the Question.

There is a bright ten-year-old boy in Bangor, Me., whose aunt has a fond of keeping an autograph album. Some sentimental friend wrote upon one page the quotation: "What is so rare as a day in June." The youngster in question was looking over the book for a place to put his name and noticed this. The next page was vacant and he wrote in the bold, if somewhat scraggy, cigraphy of youth, the answer as he saw it: "A Chinaman with whiskers," and then signed his name.

A Misunderstanding.

Misunderstood systems of disease lead doctors to treat something else when the kidneys are out of order. Foley's Kidney Cure will bring you health when other medicines have failed.

If you wish to find out whether a certain woman has any faults, ask her best friends.

Some men prefer to marry a poor girl rather than a rich one in order that they may retain their independence.

YOUNG MAN HONORED

Judge Taft Appointed Civil Governor
of the Philippines.His Friends Think That He Has the
Ability and Experience Necessary
to Establish a Stable
Local Government.

The president has selected Judge William H. Taft, of Cincinnati, to be the first civilian governor of the territory of the Philippines when that territory is established provisionally by the executive, if congress fails to legislate to that end within the next two months. Judge Taft's appointment and his inducement to surrender his life position on the bench are attributed to Judge Day, formerly secretary of state and president of the Paris peace commission, as well as the most trusted friend and adviser of the president. Judge Day brought Judge Taft to Washington and joined with the president in urging him to make the personal sacrifices required and to take up the great responsibility. It became known to several officials that the president's first impulse was to trust the establishment of the Philippine territorial government to Judge Day, whose health, however, was too precarious to permit him to undertake the voyage and the long confinement in the tropics. It was Judge Day who suggested Judge Taft, and secured his acceptance.

Judge Taft is only 42 years of age, and is physically fitted for the extremely arduous labors that will fall to a conscientious man undertaking the great task before him. He resigned from the bench, to take effect March 15, when it is expected that the new commission of which he is the head will start for Manila.

The Taft commission has no connection with that composed of President Schurman, Admiral Dewey, Gen. Otis, Col. Denby and Prof. Worcester. They

JUDGE WILLIAM H. TAFT.
(First Civil Governor of the Territory of the Philippines.)

have finished their field work and are now completing the final volumes of their report. It is not likely that any of them will be connected with the new commission, which is constituted solely for the inauguration of civil administration to replace military rule as soon as possible in the pacified portions of the Philippines. Judge Taft and his colleagues will go to Manila and will relieve Gen. Otis of all but strictly military matters.

They will take over the customs and other services, establish schools and courts and put the territorial machinery at work, assuming the chief places themselves, according to their special fitness. The commission will take with it a large number of employees, as the government now organized will be the foundation of all others to come so long as the Philippines remain territory of the United States. Exactly what line will be drawn between the new commission's powers and the power of the military governors has not been definitely settled, but it is the president's hope to make the civil government supreme and to be able soon to withdraw a large part of the military and naval power now required.

Judge Taft's appointment as commissioner does not require the consent of the senate, for until congress provides for the government of the Philippines they will continue under the supreme control of the president, whose agents will be compensated out of the island revenues. It is understood that Judge Taft will receive \$25,000 a year, and that his colleagues on the commission will be treated with similar liberality.

William Howard Taft was born in Cincinnati on September 15, 1857, and was graduated from Yale in 1878. He was at one time solicitor general of the United States. He was commissioned judge for the Sixth circuit on March 17, 1892, and has ever since held that place. He is a son of the late Alphonso Taft, attorney general of the United States.

The Space Used by Horses.

By abolishing horses travel in cities will not be as congested owing to the saving in room now occupied by the horse. There are approximately 200,000 horses used in New York city alone, and a horse increases the length of a wagon by nine feet. Taking the average width occupied by a horse and shafts as two feet, it is seen that 200,000 horses occupy about 3,600 square feet.

Age Affects the Feet.

A London physician declares that a person in robust health walks with his toes pointed to the front, while one with his health on the wane gradually turns his toes to the side, and a bend is perceptible in his knees.

Resistance of Trains.

It is ascertained on scientific data that the air resistance to a railway train of average weight moving 60 miles an hour is 11,974 pounds—nearly six tons.

A CLEAR HEAD;

good digestion; sound sleep; a fine appetite and a ripe old age, are some of the results of the use of Tutt's Liver Pills. A single dose will convince you of their wonderful effects and virt.

A Known Fact.

An absolute cure for sick headache, dyspepsia, malaria, sour stomach, dizziness, constipation, bilious fever, piles, torpid liver and all kindred diseases.

Tutt's Liver Pills

Look to the past for history, to the future for promise and to the man who advertises for best values.

To Stop a Cold.

After exposure or when you feel a cold coming on, take a dose of Foley's Honey and Tar. It never fails to stop a cold if taken in time. Take nothing else. Sold by Anderson & Fowler.

Too many things that a great many people waste time arguing about are true.

FATAL delays are caused by experimenting with cough and cold cures. Foley's Honey and Tar will prevent a cold from resulting in PNEUMONIA. Sold by Anderson & Fowler.

A woman thinks as a man gets older he ought to be able to quit smoking if he wants to.

For a clear complexion, bright sparkling eye and vigorous digestion, take PRICKLY ASH BITTERS. It puts the system in perfect order.

There are as many kind of silver knives as there are different brands of bicycles.

Irregular bowel movements lead to chronic constipation. PRICKLY ASH BITTERS is a reliable system regulator; cures permanently.

One of the funniest things in this world is the way folks, opinion of a man changes when they get mad at him.

We wonder why folks always employ girls and never boys to take care of small children.

Kidney disease is the enemy we have most to fear as a result of the feverish restlessness of our much vaunted modern civilization. It is a treacherous enemy, working out its deadly effect under cover of the most trifling symptoms. The first indication of changes in the urine, frequent headaches, digestive trouble should be the signal for prompt remedial measures. PRICKLY ASH BITTERS is a kidney remedy of superlative merit; it is soothing, healing and strengthening, quickly relieves the aching or soreness that always appear in the advanced stages, checks the progress of the disease and through its excellent cleansing and regulating effect in the stomach, liver and bowels, it brings back the strength and ruddy glow of vigorous health.

The reason why some people don't object to the price of an article they are buying is that they never intend to pay for it.

To Cure Colds And Grippe.

Take Dr. Mendenhall's Cold and Grippe Cure Tablets in connection with Dr. Mendenhall's Pine Balsam, the best treatment for coughs, colds and pneumonia. Price 25 cents each. Sold by R. C. Hardwick and J. O. Cook.

I would rather write the songs of a nation than make its laws, but I would not neglect to get the songs copyrighted.

Frequent Coughing.

inflames the lungs. Foley's Honey and Tar stops the coughing and heals the lungs. The ordinary cough medicines which are simply expectorants, will not do this, as they keep the lungs irritated in throwing off the phlegm. Sold by Anderson & Fowler.

A sure recipe for failure—make it a rule of your life never knowingly to hurt the feeling of others.

The worries of a weak and sick mother are only begun with the birth of her child. By day her work is constantly interrupted and at night her rest is broken by the wailing of the peevish, puny infant. Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It lightens all the burdens of maternity, giving to mothers strength and vigor, which they impart to their children. In over thirty years of practice Dr. Pierce and his associate staff of nearly a score of physicians have treated and cured more than half a million suffering women. Sick women are invited to consult Dr. Pierce by letter free of charge. All correspondence is strictly private. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.
